ORDER INFORMATION

Flexible armparts:

Maximum load capacity up to 25 kg, they are not seats.

One arm chaise K 105R/L:

The oversized one arm chaise K 105R/L can be ordered as a "disassembled item" (surcharge). The stitching in the backrest then changes. If you specify order no. KZB, you will receive the backrest separately. If nothing is specified, the item will be delivered assembled.

Seam division in the one arm chaises:

For technical reasons, the different one arm chaises also have different seam divisions in the seat cover. For example, the cover of the K70R/L is divided horizontally once and vertically once in the end section. The cover of the K105R/L one arm chaise is divided horizontally twice.

Extendible bed surface:

Elements equipped with motorised seat ex-

tension have a more firm seating comfort than elements without.

Back sides of sofas:

All pieces are genuinely upholstered at the back. **Positioning diagram:** Please send us a positioning diagram, depending on the different variations available. The connecting sides got marked in red for some elements in the type guide.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

This model is available in leather and some fabric colours with contrasting colour thread at no extra charge. You will find the specified colours in our fabric/leather trolley. Please state the no., otherwise tone-in-tone will be delivered.

All of the dimensions given are approximate dimensions in cm in width/depth/height/seat height. We reserve the right to make changes. The depth includes the overhang with the headrest folded back.

Measurements of the corner combinations:

With this model the seat of the one arm chaises the seat rises approx. 2 to 3 cm into the connecting side. Therefore other total measures occur than by pure addition of the article measurements. Please note.

Seat depth: approx. **52 cm**

Seat depth with function: approx. **72 cm**

Armpart width: ca. **37 cm**

Armpart height: ca. **55 cm**

Armpart height with function: approx. **71 cm**

Height, if headrest up: approx. **98 cm**

Especially casual upholstery:

The upholstery is especially casually processed to create a certain appearance with a super soft surface. The covers may already show a pronounced wavy appearance on delivery, which is intentional due to the design and construction and may become even more pronounced with use. This is not a quality defect, but a model-related characteristic.

Note on upholstery construction:

Ticking cushions have been used in the back. These may show under the cover. This is a typical feature of the product.

Base leg Z:

If elements and sofas without or with 1 armpart

are to be placed directly against elements or sofas without or with 1 armpart, a base leg Z is required and must be ordered separately.

Digital fabric/leather and colour samples:

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.
